7. CENTRAL HIGHLANDS - Population 167,190
Base Hospital - Ballarat
8. GIPPSLAND - Population 217,992
Base Hospital - Sale

These regions are based on Health Commission information. I have included more than one region in three cases to cut down the number of visits necessary and where it has been geographically suitable.

I understand these regions are under review. Originally a base hospital was named where there were approximately 18 district hospitals in the area.

Population statistics are based on figures obtained from the Australian Bureau of Statistics incorporating the 1981 Census figures.
