

October 5th, 1989.

Mrs. Susan Hurley
Epidemiologist
Cancer Epidemiology Centre
Anti-Cancer Council of Victoria

Dear Susan,

Thank you for forwarding to me the Agenda items for the next Management Committee.

I am unable to send to you a final copy of the VHPP report as I do not have one. Dr. Campbell forwarded it to Mr. Jonathan Tribe and it is now in his hands. As soon as I receive one I shall send one to you immediately.

Regards,

DELIA M. FLINT-RICHTER
Program Manager

all letters O.K.
→ not comm

Susan

When the clear letters for Drs. was downloaded and printed today, not all were printed out. Is it a problem with the printer or "communications"?

This morning there were a few hiccups in downloading from the 386 re Participant Summary + Appb list.

I would be grateful for any advice

Program Manager.

Re: Backup of Computer System.

I have received your Fax re the above. Yes, the full backup was intended to be done on Tuesday; however Herman did not indicate that it was absolutely important; the reasons I understood to do it, were - to see if two tapes were necessary, ~~and~~ that it was important to do ASAP, because a successful one had not been done for a while and to check the number of hours for Tape 1 to run and if necessary Tape 2.

On Tuesday, I made the observation that (1) one screen had to be used for Data Entry (the 2 data entry staff have had 3 days off during the past week)

(2) Patricia needed a screen for her work.

(3) One screen available for appointments and word processing.

A combined project of the Amalgamated Melbourne and Essendon Hospitals and the Anti-Cancer Council of Victoria.
Funded by the Victorian Health Promotion Foundation.

I have faxed to Hugh Geady this morning the printouts following the Total Backup yesterday and the Daily backup.

Out of interest - the Full backup needed

2 tapes. - Tape one - 5 1/4 hours.

Tape two ~ 3 hours - it finished between 1700 hrs and 18.30 hours.

I have asked Hugh Geady to contact me later this afternoon ~~if~~ re doing a full backup on the weekend.

I have inserted a tape for the automatic daily backup this evening.

The Full back at present will require me to come in twice over the weekend.

If I had known doing the full back yesterday may have caused complications, naturally I would have done it on Tuesday.

Delia
